

VETERINARIAN ATTESTATION

Attach the itemized estimate or invoice and the current clinical record. A technician may prepare this form. The licensed veterinarian must review and sign it.

1 CONFIRM THE PET, CLINIC, AND SIGNER

Pet name _____ Age or DOB _____ Type ☐ Dog ☐ Cat ☐ Other _____

Breed _____ If mixed, primary breed _____

Pet status at submission:

☐ Alive ☐ Deceased Date of death: _____

Clinic name _____

Street address _____

City _____ State _____ ZIP _____

Veterinarian legal name _____ License state _____ License no. _____

Merchant ID (MID)* _____ Processor _____ ☐ No traditional MID issued

**Find the MID on the processor statement or portal, settlement/funding report, welcome letter, or terminal label. Do not enter a batch, transaction, terminal, gateway, or bank-account number.*

2 ATTACH THE RECORDS

Attach all available records relevant to this request:

- ☐ Itemized estimate and/or invoice
☐ Current chart note or discharge summary
☐ Relevant labs, imaging, specialist, preventive, behavior, or emotional-wellbeing records

Clinical records remain private and are not included in the public copy.

3 IDENTIFY THE SERVICES AND LINE ITEMS

Types of services on the attached estimate or invoice (check all that apply):

- ☐ Illness, injury, or related diagnostics/treatment
☐ Routine, preventive, or planned care, including elective spay/neuter
☐ End-of-life or postmortem service, including hospice, euthanasia, or necropsy

Service status:

☐ Proposed or estimated ☐ Completed or invoiced ☐ Both

Necropsy:

☐ Not included ☐ Proposed or scheduled ☐ Completed

For a mixed visit, clearly identify which charges are routine, illness/injury, or end-of-life/postmortem.

4 CONFIRM THE CLINICAL FACTS

Skip this section only when the request is solely for a necropsy.

Diagnosis in the attached record:

☐ Confirmed ☐ Suspected ☐ Not yet determined

Prognosis with recommended care:

☐ Favorable ☐ Fair ☐ Guarded, poor, or grave

Latest medically reasonable time to begin care:

☐ Within 24 hours ☐ Within 2 to 7 days ☐ More than 7 days or routine

Most likely result if care begins after that time:

- ☐ No material near-term harm
☐ Worsening condition or pain, or more difficult treatment
☐ Permanent injury, organ impairment, life-threatening decline, or death

Help a Pet determines priority from the records and its clinical rules, not from the selected timeframe alone.

5 ANSWER THE ELIGIBILITY FACTS

A. Was the treated condition reasonably preventable by an established vaccine or ordinary preventive measure due before onset?

- ☐ No or not applicable
☐ Yes, and the measure was current or medically contraindicated
☐ Yes, and the measure was overdue or omitted

B. Other than separately identified spay/neuter or necropsy, do any submitted line items primarily alter appearance, remove or impair normal function, or serve owner convenience rather than diagnose or treat a condition?

- ☐ No
☐ Yes, but medically necessary for a documented condition
☐ Yes, cosmetic or nontherapeutic. Those charges are separately identified for exclusion

Examples include nontherapeutic ear cropping, tail docking, declawing, and devocalization. Any medical exception must be documented in the record.

6 PUBLIC COPY, CERTIFICATION, AND SIGNATURE

PUBLIC COMMUNITY VERIFICATION NOTICE. As part of ticket processing, Help a Pet creates redacted, view-only copies of the itemized invoice and/or estimate and this attestation. The member shares the system-created ticket post containing the public verification link; the member does not redact the documents. The public copies may show only the clinic name, city, state, ZIP, service descriptions, dates, charges, and non-identifying attestation answers. Help a Pet redacts the clinic street address and contact information; owner/member and pet identifiers appearing on the documents; veterinarian and staff information; signatures; license information; MID, processor, payment/account identifiers; and all other nonpublic fields. The copies are displayed for community review and are not offered for download.

☐ **I CERTIFY:** I certify, based on my knowledge and the clinic record, that the answers and attachments are true, correct, and complete in all material respects. I separately identified routine, preventive, planned, spay/neuter, end-of-life, postmortem, cosmetic, convenience-only, and nontherapeutic lines. Any appearance- or function-altering service claimed as medically necessary has a documented diagnosis and clinical indication. I authorize verification and understand that a knowingly material false or misleading submission may result in denial or recovery of funds, platform suspension, and referral as permitted by law to licensing, payment, financial, or law-enforcement authorities.

Veterinarian signature / typed legal name _____ Date _____ Ticket ID _____

The veterinarian supplies facts. Help a Pet determines eligibility, funding lane, and clinical priority.
